#### San Francisco Chamber of Commerce.

Mr. Robert W. Cole, Barbourville, Ky. My Dear Robert:

I am here on a membership campaign for the San Francisco Chamber of Commerce.

Our first day's work of menibership committees resulted in 1270 members, the largest num-church Sunday. ber of additional memberships! ever obtained in a single day for a chamber of commerce. This adds about \$50,000 new income to the \$90,000 income heretofore from about 2400 old members.

In other words we gave them cent gain both in membership come off Thursday. and in money income.

## CRYING FOR HELP

Lots of It in Barbourville But Daily Growing Less.

The kidneys often cry for help. Not another organ in the whole body more delicately constructed; speeches indeed.

Not one more important to health. The kidneys are the tilters of

the blood. When they fail the blood be-

comes foul and poisonous. There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble.

It is often the kidneys' cry for Heed it

Mr. Hughes is criticised for his frequent use of the word "now." Evidently his immediateness is worrying the watchful waiters, who put things off uatii tomorrow,

Mr. Hughes' speeches are giving poor satisfaction to the Democratic press, which proves they are very good

Secretary Baker is developing an agility in changing his mind that must endear him to his discoverer.

Mr. Wilson's administration must confess itself incompetent in one respect or the other. It either has appropriated for an unaleded navy or it has neglected a needed navy. It can select its fault to suit itself. In one respect or the other it must be wrong.

"I believe in efficiency in politics just as much as in anything else," says Mr. Hinghes. Efficiency is an excellent watchword, and its use in the campaign is merely a forerunner of its use in the White House when he gels there

First they said that Hughes was an iceberg; now they are saying that he is a mud slinger. He cannot possibly be both and, as a matter of fact, is neither. The Democrats must feel in ighty bad way when they cry out

On the centrary, he has employed every elacutionary device to luil to sleep our cense of duty, to make us content with words instead of deeds, to meka our moral idealiam end enthueissm evaperate in empty phreses instead of being reduced to concrete action.—From the Speech of Cala-nel Theodore Reesevelt, Delivof Charles E. ### **Telling Tariff Points**

\*\*\*\*\*\*\*

Let these telling points on tariff and protection in the speech by Charles Evans Hughes, the Itepublican candidate for President, delivered in the Salt Lake Tabernacle, be fixed permanently in your mind and memory during the remninder of the campaign:

We are desirous of having strong and sure the foundations of our national greatness in this pursuit of competition among the natious which is sure to follow the cessation of tha present struggle.

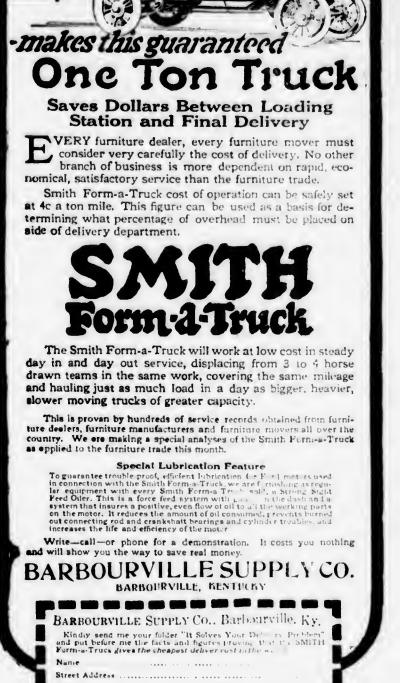

as the notionni party, according to the tion for the Southern mountains constitution of the United States, It seems both men eppeared on the within the national sphere, shall pro- Diatfarm at o meeting in behalf of Beceed wherever it is practicable to build up and foster and encourage American enterprise and open the doors wide for honest American achievement.

Then came the Underwood tariff bill itself. What was the result? Enterprise bulled and there was a contraction of trade throughout the land, and America, instead of going ahead, slopped. That is what happened. Three hundred thousand were unemployed in the city of New York. There was not a city in this land where the jobiess man anxious and able to work did not waik the street. They were fed by our charitable organizations, which were taxed to the ulmost limit to provide for those for whom American enterprise could no longer make provision. It was a sad spectacle. Americans have not forgotten it. It is not forgotten here or nnywhere. It cannot be forgotten. It is too recent.

If you are going to have the basis for prosperity in this country, if you are going to protect the American wage scale, it you are going to have American enterprise able to meet the competitlen which will follow the ending of this war, you must have an honestly devised, wisely framed tariff iaw to protect American Industry.

No; the Democratic party will not be saved by the European war. If you would know what our condition will be when that war ends think of what our condition was before that wer began if you think these nations are so impoverished that they cannot again lurn to work. Those millions of men now lighting are better able to work than ever before in their ilves. . . . Their factories are there; their plants are there; they know themselves better than ever before. They are better disciplined, more alert, keener, stronger, hetter physically, than ever before in the main, and they are ready to turn great actional energies late the pursuits of peace to pay their war bills, to produce up to the limit, to send their goods throughout the world,

I propose that we shall study this out applying a principle that we believe La, and seeme lined, sently and honouty adequate protection to American indus-tries in every part of this land.

Students of Democratic politics know what a thin line divides stepping aside and sidestepping.

The Democrats seem to realize, to their dismay, that if they can't persuade Mr. Hughes to change from plaintiff to defendant the case is lost.

The president "will not take the etump," but "will accept invitations to speak at different places." Chairman Vance McCormick is as Machiavallian as a musk meion.

## LDER BUT STRONGEI

is sound advice, because in the at of slight aches and pains, simply formine strength and bring chronic stances for later years.

Keeping up with the procession is not enough for the General—he must lead. And lead he does-in volume, quality and price. The General's leadership is due to the enormous resources at his command—the five m's of modern manufacturing—men, money, mills, machinery and materials.

Men who have learned the roofing business through years of practical experience are in charge of every department of the business. Men who have made a life study of the blending of asphalts comprise the General's Board of Expert Chemists.

Money—the means to promote efficiency, increase out-put, reduce cost, prevent waste —is at the General's call in abundance.

Mills—the largest roofing mills in the world are the General's. They are advantageously located at points where cost of fuel, access to raw materials and quick distribution of of finished products are most favorable.

Machinery—the most modern known to the roofing business, equips each of the General's enormous mills. Not a dollar is left unspent which would speed up production, increase quality or lower costs.

Materials—the food of the mills—is bought by the General in enormous quantities, and stored. This means the pick of the market and favorable buying, and no loss from idle machinery, due to shortage of materials.

Thus the success of CERTAIN-TEED Roofing is no secret, but is due to a combination of resources and experience without parallel in the roofing business.

CERTAIN-TEED is made of the best quality roofing felt, thoroughly saturated with a scientific blend of soft asphalts, the formula of the General's board of expert

chemists. It is then coated with a blend of harder asphalts, which keeps the inner saturation soft and prevents the drying-out so destructive to the ordinary roof.

CERTAIN-TEED is guarantee 1 for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it lasts longer.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roof, from skyscraper to small residence or out-building.

CHATA: . . mil. I sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.

CARNIVAL OF DEBAUCHERY IN PUBLIC EXPENDITURE

Senator Penrose Believes the Looted Condition of the Treasury Will Necessitate the Withholding of Contracts For Battleships and Delay the Whole Scheme of Preparednese-Nation's Money Frittered Away to Finance Hare Brained and Ill Advised Projects.

William It. Willeox, chalman of the Republican National committee, has recelved from Senntor Penrose a brief but positive summing up of the ex-

"When the country reallzes what this congress has done in the way of approprintions it will be dumfounded. a billion, seven or eight immirred milllon dollars have been appropriatedmore meney than was ever appropriated in any one year in the history of the American government. . I was a see Spala. Under . and Willy I We are assured we have ind "peace" with heree These are the words. No. or the deeds. During the 4 war with Spalie fewer Americans were fallen by the Spanlards than have been killed by Mexicaus during the present "pence" with Mexico. Let me repeat th. . A greater number of Amerleans have been killed by Mexleans during these years, when we are efficially informed that we have been at peace with them, than were killed by the Spunlards during our entire war with Spain, Moreover, where the war with Spain was through, it was through. But peace still continues be rage as furlously as ever in Mexico. Nor is this all. The lustant effect of the out-4 come of the war with Spalu was to put a stop to the dreadful a and the Philippines, and the entry of both Cuba and the Philippines on a career of eighteen years of peace and prosperity such as they laid never known before in all their checkered history. But during these three years of Mr. Wilson's 4 "pence" the Mexicans themselves have been butchered by & their own bandits stendily and 4 without Intermission; and Mex- + ican wennen and children have 💠 died by thousands probably by 4 scores of thousands-of starvation and of the diseases incident to starvation. In other words, Mr. McKinley's war cost less than peace; and it reflected high houor on the American people; whereas Mr. Wilson's peace has been one of shame and dishonor for the American people, and one of ruly and bloodshed for the Meylcans. 

#### A PICTURE OF HUGHES.

The New York World, which once was outspoken in its admiration for Mr. Hughes, now declares that the people do not know where Hughes stands, or what he stands for. This Wilson organ had me such criticism to make when Mr. Hughes was governor. The World said on May 17. 1910: "Tie dictated ne nominations. controlled he convention, trafficked in no patronage, made no bargains with dire holders. He has rewarded no body for supporting him and panished hobody for opposing blan. What Inthrence he has wielded over public ofdinion has come through his appenis to the voters themselves." That Is the estimate of Mr. Hughes given by the World six years ago. It is a pretty fulr letter of recommendation Could the World say as much for President Wilson's Bardly, for the president has done all of the things from which the World misolved Hughes .- Kansas City Journal,

OF WILSON'S ABASEMENT.

Having condoned the repeated murders of Americans by the Carranzistas and having abased himself before Carranza and having aided in placing Carran-za in power, what is Mr. Wilson's reward, and who paye it? The reward is that Mr. Wilson has to place 150,000 troops on the border to partially prevent the raids and minders that his friend, Mr. Carr wza, will not or cannot prevent, and the payment is made by the soldiers who are stain and by the famdies .. the guardsmen who go in want because their husbande and fathers have been called "10 the border to make good Mr. Wilson's refusal to let the regular army administer grach pun-ishment to the Gardells as to in-spire in them a healthy fear.— From the Speech of Colonal Tyneodore Roosevelt, Delivered at Lewiston, Me., in Behalf of Charles E. Hughes.

The President blinself has tried to appropriate for his own advantage he sentiment of "America lirst." The Democrats have tried to make his support an act of idely by adopting "Thank God for Wilson" as a slogan. Mr. Haghes with rare courage, frunkness and penetration, is exposing the illnisy foundation for the claims of Wilsonian infallibility. He is buying bare a record of extravagance, par-fismiship, se tionalism, incompetence, wrongheadedaess, vucelliation and inslucerity which destroys the attempt to make a joes out of the President. The Democrats must come out of their ecstable trance and defend their stewardship. The President is to be put on the stump. We are to hear some thing beside fielphic prose poems.-St. Louis Globe-Remocrat.

\*\*\*\*\*

Mr. Wilson now virtually admits that all his own ideas were wrong four years ago. He has changed his mind on every public question. On some of them he has changed twice or even three times. Even if his friends could satisfy the public at this time he is exactly right, what assurance could by given that he would be right a year

\*\*\*\*\*\*

WHY HUCHES IS NEEDED IN 4 THIS TREMENDOUS CRISIS.

Against Mr. Wilson's combination of grace in elecution with 4. futility in action, against his rec- 4ord of words unbacked by deeds & or belrayed by deeds, we set Mr. 3. 4 Hughes' ragged and uncompro- 4 + mising straightforwardness of eharaeter and action in every of † tice he has held.
